AUDITOR’S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor’s review report originally issued in Turkish, See Note I of Section Three)

To the General Assembly of Bank of China Turkey A.Ş.;

Introduction

We have reviewed the unconsolidated balance sheet of Bank of China Turkey A.Ş. (“the Bank”) at 30 June 2024 and the related unconsolidated statement of profit or loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders’ equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial information in accordance with the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Legislation which includes “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 “Interim Financial Reporting” for those matters not regulated by the aforementioned regulations. Our responsibility is to express a conclusion on these interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, “Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial information does not present fairly in all material respects the financial position of Bank of China Turkey A.Ş. at 30 June 2024 and its financial performance and its cash flows for the six-month-period then ended in accordance with the BRSA Accounting and Financial Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Eight, is not consistent with the reviewed unconsolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation:

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of 30 June 2024. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the unconsolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AS AT JUNE 30, 2024

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise indicated)

SECTION THREE

ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

a. Preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures on the Accounting Practice and Documentation of Banks

The unconsolidated financial statements are prepared in accordance with the “Regulation on the Principles and Procedures Regarding Banks’ Accounting Applications and Safeguarding of Documents” published in the Official Gazette No. 26333 dated November 1, 2006 by the Banking Regulation and Supervision Agency (“BRSA”) which refers to “Turkish Accounting Standards (“TAS”) 34 - Interim Financial Reporting” and “Turkish Financial Reporting Standards (“TFRS”) issued by the Public Oversight Accounting and Auditing Standards Authority (“POA”) and other decrees, notes and explanations related to the accounting and financial reporting principles published by the BRSA. The format and the details of the publicly announced financial statements and related disclosures to these statements have been prepared in accordance with the “Communiqué Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements” and changes and notes to this communiqué published in the Official Gazette No. 28337 dated June 28, 2012.

The Bank maintains its books of accounts in Turkish Lira in accordance with the Banking Act, the Turkish Commercial Code (“TCC”) and Turkish Tax Legislation.

The financial statements have been prepared in Turkish Lira (TL), based on the historical cost basis except for the financial assets, liabilities and derivatives, which are expressed with their fair values.

On November 23, 2023, POA announced that entities reporting under TFRS should begin implementing “TAS - 29 Financial Reporting in Hyperinflationary Economies” standard in their financial statements from periods ending on and after December 31, 2023. Besides, regulatory and auditing bodies that are authorized in their respective areas have flexibility to determine alternative transition dates for the application of TAS - 29. Within the scope of the decision dated December 12, 2023 and numbered 10744 by the BRSA, banks, financial leasing, factoring, financing, savings financing, and asset management companies are not subject to inflation adjustments required under TAS - 29 in their financial statements as of December 31, 2023. Based on the decision dated January 11, 2024 and numbered 10825, these entities are required to implement inflation accounting starting from January 1, 2025.

Additional paragraph for convenience translation into English of financial statements originally issued in Turkish

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in these unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

b. Accounting policies and valuation principles applied in preparation of financial statements

The accounting policies and valuation principles used in the preparation of the financial statements are selected and applied in accordance with the requirements set out in regulations, communiqués, statements and guidance published by the BRSA and if there is no special regulation by the BRSA, in accordance with the principles within TAS / TFRS.

I. BASIS OF PRESENTATION (Continued)

b. Accounting policies and valuation principles applied in preparation of financial statements (Continued)

The accounting policies and valuation principles applied in the preparation of the accompanying financial statements are explained in Notes II and XXII below.

In preparing the financial statements in accordance with TFRS, the Bank's management is required to make assumptions and estimates about the assets and liabilities on the balance sheet and conditional issues as of the balance sheet date. These assumptions and estimates are reviewed regularly, necessary adjustments are made, and the details of the effects of these adjustments are reflected in the income statement as described in the related footnotes.

c. Changes in accounting policy

The TFRS changes, effective from January 1, 2023, do not have a significant effect on the Bank's accounting policies, financial status and performance. The TFRS changes that were published but not put into effect as of the final date of the financial statements will not have a significant effect on the Bank's accounting policies, financial status and performance.

The Bank has loan and borrowing transactions within the scope of the reform mentioned in the previous paragraph. Bank transactions are indexed to EURIBOR and USD LIBOR benchmark interest rates. Necessary developments have been completed for the usage of USD LIBOR indexed transaction's overnight interest rate transition as of June 30, 2023. Besides, the Bank is using alternative interest rates (SOFR) for its floating interest transactions after the EURIBOR transition since June 30, 2023.

II. EXPLANATIONS ON THE USAGE STRATEGY OF FINANCIAL INSTRUMENTS AND ON FOREIGN CURRENCY TRANSACTIONS

The Bank operates in the fields of Corporate Banking and Treasury banking in Turkey. The Bank provides cash, non-cash loans, project financing and corporate finance services to its corporate customers under the umbrella of corporate banking.

The Bank's most important funding source is its capital. Most of the Bank's assets consist of placements to banks. While capital is evaluated in high quality financial assets, an asset-liability management strategy is followed to keep interest, liquidity and exchange rate risks within certain limits. Foreign currency, interest and liquidity risks carried in the balance sheet and off-balance sheet assets and liabilities are managed within the framework of various risk limits and legal limits adopted by the Bank. The position of the Bank as a result of its foreign currency operations is kept at a minimum level and the foreign exchange rate risk is monitored within the framework of the Banking Law.

Explanation on foreign currency transactions:

Foreign exchange gains and losses arising from the foreign currency transactions are converted into Turkish Lira by using the exchange rates at the date of the transaction and recognized in accounting records. At the end of the Periods, foreign currency assets and liabilities are converted into Turkish Lira by using the spot foreign currency exchange rates of the Bank at the end of the Period and the related currency conversion differences are recognized as foreign exchange gains and losses.

III. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

The Bank's derivative instruments are classified as "Derivative Financial Assets Measured at Fair Value through Profit and Loss" or "Derivative Financial Assets Measured at Fair Value through Other Comprehensive Income" in accordance with "TFRS 9".

In accordance with TFRS 9, forward foreign exchange contracts, swaps, options and futures transactions are classified as "Derivative Financial Assets Measured at Fair Value through Profit and Loss". Derivative transactions are recorded at their fair value at the date of the contract. In addition, liabilities and receivables arising from derivative transactions are recorded in off-balance sheet accounts at contractual amounts.

As of June 30, 2024, the Bank has no derivative financial liability which is classified as "Derivative Financial Liabilities Measured at Fair Value through Profit and Loss" (December 31, 2023: none)

IV. INFORMATION ON INTEREST INCOME AND EXPENSES

Interest income and expenses are recognized at fair value and accrued on an accrual basis using the effective interest method (the rate that equals the future cash flows of a financial asset or liability to its present net carrying amount) based on the principal amount outstanding.

V. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSES

According to the nature of fees and commissions; commission income / expenses collected for any future transaction are recognized on an accrual basis and other fee and commission income / expenses are recognized in accordance with TFRS 15 in the Period in which they are incurred.

VI. EXPLANATIONS ON FINANCIAL ASSETS

Within the framework of the business plan, the Bank classifies and accounts for its financial assets as "Financial assets at fair value through profit or loss", "Financial assets at fair value through other comprehensive income "or "Financial assets at amortized cost". Such financial assets are accounted for in accordance with the "TFRS 9 Financial Instruments" standard, which is about the classification and measurement of financial instruments published in the Official Gazette dated January 15, 2019 and numbered 30656 by the Public Oversight Accounting and Auditing Standards Authority. The Bank is registered or issued in accordance with the provisions of "Inclusion in Financial Statements and Exclusion from Financial Statements" in the third part of the standard, effective from January 1, 2018.

In the first measurement of financial assets other than "Financial Assets at Fair Value Through Profit/Loss", transaction costs are added to the fair value or deducted from the fair value.

The Bank recognizes a financial asset only when it is a party to the contractual provisions of the financial instrument. The first time that a financial asset is included in the financial statements, the characteristics of the business model and the contractual cash flows of the financial asset are taken into account by the Bank Management. When the business model determined by the bank management is changed, all financial assets affected by this change are reclassified and the reclassification is applied in the future. In such cases, no adjustments are made to the earnings, losses or interests previously recognized in the financial statements.

The Bank has no financial assets at fair value through profit or loss and other comprehensive income as of June 30, 2024. (December 31, 2023: None).

Financial assets measured at amortized cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at their acquisition cost including the transaction costs, which reflect the fair value of those instruments and are subsequently recognized at "Amortized Cost" by using "Effective Interest (Internal Efficiency) Rate" method. Interest income obtained from financial assets measured at amortized cost is accounted in the income statement.

Loans and Receivables:

Loans are financial assets that have fixed or determinable payments and are not quoted on an active market. Such loans are initially recognized at cost with fair value reflecting transaction costs and are measured at amortized cost using the "effective interest rate (internal rate of return) method".

VII. INFORMATION ON IMPAIRMENT OF FINANCIAL ASSETS

As of January 1, 2020, the Bank started to recognize provisions for impairment in accordance with TFRS 9 requirements according to the “Regulation on the Procedures and Principles for Classification of Loans by Banks and Provisions to be set aside” published in the Official Gazette dated June 22, 2016 numbered 29750. In this framework, as of December 31, 2019, method of provisions for impairment as set out in accordance with the related legislation of BRSA is changed by applying the expected credit loss model under TFRS 9. The expected credit loss estimates are required to be unbiased, probability-weighted and include supportable information about past events, current conditions, and forecasts of future economic conditions.

The Bank sets aside the expected loss provision for its financial assets measured at amortized cost and at fair value through other comprehensive income.

These financial assets are divided into three categories depending on the gradual increase in credit risk observed since their initial recognition:

Stage 1:

For the financial assets at initial recognition or for those which do not have a significant increase in credit risk since initial recognition. Impairment for credit risk is recorded in the amount of 12-month expected credit losses.

Stage 2:

In the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined based on the instrument’s lifetime expected credit losses.

Stage 3:

Stage 3 includes financial assets that have objective evidence of impairment as of the reporting date. Lifetime expected credit losses are recorded for these assets.

Use of current conditions, past events and macroeconomic forecasts:

After making a segment separation according to the counterparty of the receivable, the Bank takes into account the different macroeconomic scenarios created for the corporate portfolio, using past events, current conditions and economic prospects for the future. The Bank uses three macroeconomic scenarios as base, positive and negative for future projections. The macroeconomic model is applied to reflect the outlook of the parameters used in the expected credit loss calculation.

Expected credit loss provision calculation:

The Bank uses the “Probability of Default x Loss in Default x Default” amount that takes into account the time value of money in the expected credit loss calculation. For the first stage receivables, 12-month expected credit loss calculation is applied, considering future information. For the second stage receivables, calculations are made for the expected life of the loan. Expected lifetime expected credit loss is calculated by discounting and collecting possible credit losses in every 12-month Period until maturity. The default probability is taken as 100% for non-performing loans and the expected loan losses are calculated in accordance with the expected life approach. Although methodological calculation methods have been determined, there are currently no loans classified in the second and third stages in the Bank's portfolio. The entire loan portfolio is at the first stage.

VIII. DISCLOSURES ABOUT NETTING AND DERECOGNITION OF FINANCIAL INSTRUMENTS

Explanations on netting of financial instruments:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

IX. INFORMATION ON SALES AND REPURCHASE AGREEMENTS AND LENDING OF SECURITIES

Funds provided by the Bank for securities sold under agreements for repurchase agreements ("Repo") are followed in the legal records in the "Funds Provided under Repurchase Agreements" and "Funds Provided under Repurchase Agreements-FC" Accounts.

Securities subject to repo (repurchase agreements) are classified as "Financial assets at fair value through profit or loss" or "Financial assets at fair value through other comprehensive income" according to their purposes to be held in the Bank's portfolio. Revenues from securities subject to repo are accounted for in interest income and expenses paid under repurchase agreements are accounted in interest expense accounts.

Funds given against securities purchased under agreements to resell ("Reverse repos") are accounted under "Receivables from money market" in the balance sheet. Interest income accruals are calculated according to the "effective interest (internal rate of return) method" for the portion of the difference between repurchase agreements and purchase and resale prices. Difference between the purchase and resale prices determined by reverse repurchase agreements, the interest income accrual is calculated according to the "Effective interest rate method".

As of June 30, 2024, the Bank has no repo, reverse repo and foreclosed marketable securities (December 31, 2023: None).

X. EXPLANATIONS ON ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS AND THE RELATED LIABILITIES

Assets held for sale, consist of tangible assets due to non-performing loans are accounted for in accordance with "TFRS 5 related to Held for Sale Fixed Assets and Discontinued Operations Turkey Financial Reporting Standards" in the financial statements.

A discontinued operation is part of a bank's business classified as disposed or held-for-sale. It refers to a separate main business line or the geographical area of its activities. It is a part of the sale of a separate main line of business or geographical area of operations alone in a coordinated plan, or is a subsidiary acquired solely for resale.

As of June 30, 2024, the Bank has no assets held for sale and discontinued operations (December 31, 2023: None).

XI. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill represents the difference between the cost of goods sold and the fair value of the identifiable assets, liabilities and contingent liabilities of the acquiree's entity / operation, and represents the payment made by the acquirer to the entity for future benefit recognition. Not included in the financial statements of the business acquired in business combinations; however, assets that are separable from goodwill, intangible assets (such as credit card brand value and customer portfolio) and / or contingent liabilities are recognized in the financial statements at fair value.

Goodwill calculated in accordance with TFRS 3 - Business Combinations Standard is not subject to amortization but instead is tested for impairment in accordance with TAS 36 - Impairment of Assets, more frequently, annually or in cases where the conditional changes in circumstances indicate it may be impaired.

Intangible assets are amortized using the straight-line method over their estimated useful lives. The determination of the useful life of the asset is made by assessing the expected duration of use of the asset, the technical, technological or other type of obsolescence and the maintenance costs required obtaining the expected economic benefit from the asset.

The main assets that the Bank classifies as intangible assets are the license and development fees paid by the Bank for the systems it uses. Intangible assets are depreciated using the straight-line method over their useful lives. The depreciation method and period are reviewed periodically at the end of each year.

As of June 30, 2024, there is no goodwill in the accompanying financial statements (December 31, 2023: None).

XII. EXPLANATIONS ON TANGIBLE ASSETS

In accordance with the "Accounting Standard for Tangible Fixed Assets" ("TAS 16"), the cost of the tangible assets is determined by adding the initial amounts of the tangible assets and other direct expenses required to make the asset available. Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

For assets that are less than an active accounting Period, depreciation is provided for the amount of the depreciation for the full year, as measured by the proportion of the asset over the life of the asset.

If the carrying amount of an item of property, plant and equipment is greater than its market value, an impairment loss is recognized for the excess amount and the amount is recognized in the financial statements. Gains or losses arising from the disposal of tangible fixed assets are transferred to profit and loss accounts of the related Period.

Maintenance and repair costs incurred for tangible assets are recorded as expense.

Depreciation rates and estimated useful lives used for the tangible assets are as follows:

Tangible Assets	Estimated Useful Life (Year)	Amortization Rate (%)
Operating Leases	5-9	11.11-20
Furniture	5-10	10-20
Office equipment	3-10	10-33.33
Safe	50	2
Vehicles	5	20

There are no restrictions such as pledges, mortgages or any other restriction on tangible assets.

XIII. EXPLANATIONS ON LEASING TRANSACTIONS

The Bank is a lessee in the offices used for the marketing of operational area services and operations, and there are no financial leasing transactions.

Explanations on TAS 16 Leases Standard:

TAS 16 Leases Standard was published in the Official Gazette dated April 16, 2019 and numbered 29826, effective from January 1, 2019. This Standard specifies the principles for the leasing, presentation, presentation and disclosure of leases. The purpose of the standard is to provide tenants and lessees with appropriate information. This information is the basis for evaluating the impact of the leases on the entity's financial position, financial performance and cash flows by users of financial statements. The Bank has started to apply the related standard on January 1, 2019.

Measurement, Presentation and Reflection of Financial Leasing into Financial Statement

The amount of the lease obligation is shown in the balance sheet as gross in proportion to the total of all cash payments under the contract and netted off with the interest expense arising from the contract. The usage right arising from the leasing transactions is capitalized at the date of the rental at the beginning of the lease by measuring the present value of the lease payments that have not been paid at that date. In this measurement, if the interest can be easily determined, the implied interest rate in the lease is used. If this ratio cannot be easily determined, the Bank's alternative borrowing interest rate announced by the Treasury Unit is used.

XIV. EXPLANATIONS ON PROVISIONS AND CONTINGENT ASSETS/LIABILITIES

Provisions and contingent liabilities except for the financial instruments within the scope of the TFRS 9 or the provisions recognized in accordance with other standards such as TAS 12 and TAS 19 are accounted in accordance with the "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" (TAS 37).

Provision is made in the financial statements if there is an existing obligation resulting from past events, it is probable that the obligation will be met and the obligation can be reliably measured. Provisions are calculated based on the Bank Management's best estimates of the expenditure required to settle the obligation at the balance sheet date and are discounted to the present value where the effect is material.

For liabilities that arise because of past events, provision is made if the probability of occurrence is high and the amount can be reliably estimated at the time when those liabilities are incurred.

Contingent assets usually consist of unplanned or other unexpected events that give rise to the possibility of entry into the business of economic benefits. The presentation of contingent assets in the financial statements is not included in the financial statements, as it may result in the recognition of an income that can never be obtained. Contingent assets are disclosed in the footnotes of financial statements if it is probable that the economic benefits will flow to the enterprise. Contingent assets are assessed on an ongoing basis to ensure that their development is accurately reflected in the financial statements. If it becomes almost certain that the economic benefit will enter the Bank, the related asset and related income are reflected in the financial statements of the Period in which the change occurs.

XV. EXPLANATION ON LIABILITIES RELATED TO EMPLOYEE RIGHTS

In accordance with the existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities including retirement and notice payments to each employee whose employment is terminated due to resignation or for reasons other than misconduct. In accordance with the revised TAS 19 employee benefits standard ("TAS 19"), such payments are recognized as defined benefit plans.

The retirement pay liability recognized in the balance sheet is calculated according to the present value of the amount of the liability expected to arise in the future due to retirement of all employees and reflected to the financial statements. Amendments to TAS 19 change the accounting for defined benefit plans and termination benefits. Changes require that all actuarial losses and gains be accounted for as other comprehensive income immediately in order to reflect the full value of the net retirement asset or liability in the balance sheet. Changes to TAS 19 should be applied retrospectively.

a. Defined benefit plans:

According to the laws and collective agreements existing in Turkey, retirement pay is paid in case of retirement or dismissal. The Bank recognizes the provision for the rights of its employees by estimating the present value of its future probable obligation in the event of retirement or dismissal.

There are no foundations, pension funds or similar associations of which the employees are members.

b. Defined contribution plans:

The Bank, on behalf of its employees, must pay contributions to the Social Security Institution (SSI) in the amount determined by law. Apart from the contribution paid by the Bank, there is no other obligation to pay to its employees or the SSI. These premiums are reflected to the personnel expenses in the Period when they are accrued.

c. Short-term benefits to employees:

The liabilities arising from the vacation pay defined as "short-term benefits to employees" within the scope of TAS 19 are accrued and are not discounted at the Periods when they are earned.

XVI. EXPLANATIONS ON TAXATION

a. Corporate tax:

As of January 1, 2023 in Turkey, corporate earnings of Banks are subject to corporate tax at the rate of 30%.

With the Law No. 7456 published in the Official Gazette dated July 15, 2023 and numbered 32249, corporate tax rate for banks has been increased to 30% from 25%, and has been applied to the corporate earnings of the accounting periods starting from January 1, 2023.

Advance tax is calculated and paid quarterly for the earnings within first 9 month of accounting period by applying the corporate tax rate which is valid for corporate earnings of that year. Advance taxes which is paid within the year is offset to Corporate Tax on the corporate tax declaration of that year. Corporate tax declarations are prepared between 1st and 30th days of 4th month of the related fiscal year and are paid until the end of the following month in one instalment.

The corporations and income tax provisions calculated over the Period profits are recorded in the "Current Tax Liability" account in the liabilities and in the "Current Tax Provision" account in the income statement as expense.

XVI. EXPLANATIONS ON TAXATION (Continued)

a. Corporate tax: (Continued)

According to the Turkish Corporate Tax Law, financial losses in the declaration can be deducted from the corporate tax base of the Period not exceeding 5 years. Declarations and related accounting entries can be examined within five years by tax office.

Dividends paid to the resident institutions and the institutions working through local offices or representatives are not subject to withholding tax. As per the decisions No.2009/14593 and No.2009/14594 of the Council of Ministers published in the Official Gazette No.27130 dated February 3, 2009, certain duty rates included in the articles No.15 and 30 of the new Corporate Tax Law No.5520 are revised. Accordingly, the withholding tax rate on the dividend payments other than the ones paid to the non-resident institutions generating income in Turkey through their operations or permanent representatives and the resident institutions has been changed to 10% from 15% by the Presidential decision published in the Official Gazette No. 31697 dated December 22, 2021. In applying the withholding tax rates on dividend payments to the non-resident institutions and the individuals, the withholding tax rates covered in the related Double Tax Treaty Agreements are taken into account. Appropriation of the retained earnings to capital is not considered as profit distribution and therefore is not subject to withholding tax.

Current tax effect concerning transactions directly accounted for in equity is also reflected to equity.

As of December 31, 2021, the conditions sought for inflation adjustment in the calculation of corporate tax have been fulfilled, within the framework of the repeated provision of Article 298/Ç of the Tax Procedure Law. These conditions are both the exceed in the increase of Producer Price Index in the last 3 accounting period including current period by 100% and the exceed in the increase in the current period by 10%. However, temporary article 33 has been added on the Tax Procedure Law No. 213 with the regulation made with the Tax Procedure Law and the Law on Change in Corporate Tax Law No. 7352 published in the Official Gazette No.31734 dated January 29, 2022, the application of inflation adjustment in the calculation of corporate tax was postponed to 2023. According to this, the financial statements for the 2021 and 2022 accounting periods, including the provisional tax periods, are not subject to inflation adjustment, and for the 2023 accounting period; are not subject to inflation adjustment as of the provisional tax periods, and the financial statements dated December 31, 2023 are subject to inflation adjustment regardless of whether the inflation adjustment conditions are met or not. Profit/loss difference arising from inflation adjustment in the financial statements are to be shown in previous years' profit/loss accounts and does not affect the corporate tax base.

According to Article 17 of the Law No. 7491 on Amendments to Certain Laws and Decree Laws published in the Official Gazette No. 32413 dated December 28, 2023, it has become law that profit/loss differences arising from the inflation adjustment to be made in the 2024 and 2025 accounting periods, including the provisional tax periods, do not be taken into account in determining the income of banks, companies within the scope of the Financial Leasing, Factoring, Financing and Savings Financing Companies Law No. 6361 dated November 21, 2012, payment and electronic money institutions, authorized foreign exchange institutions, asset management companies, capital market institutions, insurance and reinsurance companies and pension companies.

XVI. EXPLANATIONS ON TAXATION (Continued)

a. Corporate tax: (Continued)

With the Communiqué Amending the General Communiqué on Tax Procedure Law (order no. 537) published in the Official Gazette numbered 32073 on January 14, 2023, the procedures and principles of the articles allowing the revaluation of real estates and depreciation units have been redrawn. By taking into consideration aforementioned Communiqué, the Bank, has been revaluated real estate and depreciation units within its balance sheet by providing conditions in the provisions of Tax Procedure Law's provisional Article 32 and duplicated Article 298/ç until December 30, 2023. Since the financial statements are subject to inflation adjustment as of 31 December 2023, real estates and depreciation units are not subject to revaluation as of December 31, 2023.

Corporate tax is calculated by taking into account of real estates and depreciation units' amortized values until December 31, 2023.

b. Deferred tax:

In accordance with Turkish Accounting Standard on Income Taxes (TAS 12), the Bank accounts for deferred taxes based on the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

The Bank's deferred tax assets and liabilities are offsite in unconsolidated balance sheet. As of June 30, 2024, the Bank has TL 60,797 deferred tax asset (December 31, 2023: TL 52,250 deferred tax asset).

According to the temporary article 33 of the Tax Procedure Law, in the financial statements dated June 30, 2024, the tax effects arising from the inflation adjustment of corporate taxes are included in the deferred tax calculation as of June 30, 2024.

As of June 30, 2024, deferred tax is calculated using enacted tax rates for items subject to deferred tax calculation in accordance with their useful lives. Deferred tax is calculated using enacted tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the temporary differences become taxable or deductible.

Deferred tax liabilities are recognized for all taxable temporary differences, whereas deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized. As of January 1, 2020, with the provisions of TFRS 9, deferred tax assets have started to be calculated over the expected loss provisions that constitute a temporary difference.

Deferred taxes related to assets recognized directly in equity are associated with the equity account group and netted off with the related accounts in this group.

c. Transfer pricing:

Article 13 of the Corporate Tax Law No. 5520 has been rearranged under the name of "disguised profit distribution through transfer pricing" and the explanations regarding the said article, which entered into force on January 1, 2007, and the regulations made in Article 41 of the Income Tax Law with the Law No. 5615, are stated in the General Communiqué on Disguised Profit Distribution through Transfer Pricing published in the Official Gazette dated November 18, 2007/26704.

XXII. EXPLANATIONS ON EARNINGS PER SHARE

Earnings per share are calculated by dividing net profit for the year to the weighted average number of shares outstanding during the Period concerned. Earnings per share disclosed in the income statement are calculated by dividing net profit for the year to the weighted average capital outstanding during the Period concerned.

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect to bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier Period. Where the number of outstanding shares increase due to distribution of bonus shares after the balance sheet date but before the release of the financial statements, earnings per share computations are performed based on the revised average number of shares.

SECTION FOUR

INFORMATION ON FINANCIAL POSITION AND RISK MANAGEMENT

I. EXPLANATIONS ON THE COMPONENTS OF SHAREHOLDERS' EQUITY

Total capital and capital adequacy ratio have been calculated in accordance with the "Regulation on Equity of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy of Banks".

Within the scope of the regulations of the Banking Regulation and Supervision Agency dated January 31, 2023 and numbered 10496 the calculation of the amount subject to credit risk with the Central Bank's foreign exchange buying rates as of December 31, 2022 and the net value of the securities in the securities portfolio whose fair value difference is reflected in other comprehensive income.

In case the valuation differences are negative, these differences are not taken into account in the equity amount to be used for the capital adequacy ratio.

Equity amount and capital adequacy standard ratio are calculated within the framework of "Regulation on Banks' Equity" and "Regulation on Measurement and Evaluation of Capital Adequacy of Banks". According to the last regulation changes, as of 31 March 2024; in the calculation of the amount subject to credit risk; In accordance with the Standard Approach, 0% risk weight is applied to foreign currency receivables from the Central Government of the Republic of Turkey.

As of June 30, 2024, the Bank's total capital has been calculated as TL 2.680.273 (December 31, 2023: TL 2,334,164) and the capital adequacy ratio is 28.62% (December 31, 2023: 28.11%). This ratio is well above the minimum ratio required by the legislation.

I. EXPLANATIONS ON THE COMPONENTS OF SHAREHOLDERS' EQUITY (Continued)

Explanations on reconciliation of shareholder's equity items to balance sheet:

The difference between "Equity" in equity table and "Shareholder's Equity" in the unconsolidated balance sheet mainly arises from TFRS 9 transition effect of Stage 1 provisions. In the calculation of Total Capital, TFRS 9 Stage 1 expected credit losses up to 1.25% of credit risk is taken into consideration as Tier II Capital.

On the other hand, in the calculation of the "Equity", improvement costs for operating leases followed under tangible assets in the balance sheet, and related deferred tax liabilities, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

II. EXPLANATIONS ON CURRENCY RISK

The difference between the Bank's foreign currency denominated on-balance sheet and off-balance sheet assets and the foreign currency denominated on-balance sheet and off-balance sheet liabilities are defined as "FC Net General Position" and form the basis for exchange rate risk. An important dimension of the exchange rate risk is the risk (cross-currency risk) caused by the exchange of values of the foreign currencies against each other in the FX net general position.

Measurable and manageable risks are taken within legal limits. The Bank applies stress tests against the fluctuations in foreign currency within the year.

The Bank uses the "standard method" which is also used in legal reporting to measure the foreign exchange risk.

There is no significant foreign currency position in relation to the balance sheet size of the Bank and if any exchange rate risk occurs, it is taken counter position and exchange rate risk is not transferred.

The Bank's current foreign exchange buying rates announced on June 30, 2024 and December 31, 2023 as well as the last five days financial statement valuation rates are as follows:

III. EXPLANATIONS ON INTEREST RATE RISK

Interest rate risk is the probability of loss due to changes in interest rates depending on the Bank's position regarding the interest-bearing financial instruments. Interest rate risk arises because of timing differences on the re-pricing of assets and liabilities, changes in correlation of interest rates between different financial instruments and, unexpected changes in the shape and slope of yield curves.

Interest rate risk arises from maturity mismatches in the repricing of assets and liabilities, changes in the correlation between interest rates on different financial instruments, and unexpected changes in the shape and slope of yield curves. The Bank is exposed to interest rate risk when there is a mismatch between assets and liabilities that are sensitive to changes in interest rates. The Bank handles interest rate risk in terms of market risk management and asset-liability management. Within the scope of asset-liability management, sensitivity analysis is performed to measure the effects of changes in the yield curve on the balance sheet structure. The results are regularly presented to the Risk Committee and senior management. Sensitivity and scenario analyses are used to analyze how the Bank will be affected by interest rate fluctuations (volatility) in future periods. In these analyses, interest rate shocks are applied to calculate the possible losses in fair value changes on interest rate sensitive products.

In the calculation of the Bank's exposure to interest rate risk, standard method is used.

V. EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO

The Bank established Liquidity Management Principles in order to monitor, audit and manage its liquidity position and liquidity requirement. Liquidity risk of the Bank is managed through taking potential funding sources, unexpected situation plans and legal limits into consideration within the framework of limits which are updated at least annually. It is aimed to carry out activities through ensuring a liquidity level which can provide to make payments at any time to sustain the trustable bank image of the Bank in the sector via taking risk/return balance of the Bank into consideration. Cash inflow and outflows in Turkish Lira and foreign currencies are tried to be kept under control continuously in liquidity risk management approach, long-term cash flow tables are formed and scenario analysis based on expectations and stress tests are performed to determine the resistance against the sudden crisis.

The Bank determines the liquidity risk appetite and strategy written under the Liquidity Risk Policy. In this context, the Bank controls maturity mismatch between assets and liabilities to be protected from liquidity risk and maintains liquid values in order to ensure the liquidity needs that can arise because of market fluctuations.

V. EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO (Continued)

Liquidity coverage ratio:

The liquidity coverage ratio is calculated by dividing the high-quality liquid assets to the Bank's net cash outflows in the next 30 days' period. Important balance sheet items that determine the ratio are required reserves held by the CBRT, corporate deposits and receivables from banks. These items have higher impact on the liquidity coverage ratio than the other items due to high share of liquid assets and net cash outflows, higher rate of consideration and variability.

V. EXPLANATIONS ON LIQUIDITY RISK AND LIQUIDITY COVERAGE RATIO (Continued)

Liquidity coverage ratios are calculated on a weekly and monthly basis as of January 1, 2015 in accordance with the "Regulation on Calculation of the Liquidity Coverage Ratio of Banks" published in the Official Gazette No. 28948 dated March 21, 2014 and are subject to legal reporting. Liquidity coverage ratio must be at least 80% for foreign currency assets and liabilities for 2021, and at least 100% for total assets and liabilities. The dates and values of the lowest and highest foreign currency and total unconsolidated liquidity coverage ratios calculated weekly for the last three months are explained in the table below:

Current Period 30.06.2024					
	Highest	Date	Lowest	Date	Average
TL+FC	3.335	May 3, 2024	139	April 5, 2024	1.260
FC	1.605	June 7, 2024	110	April 5, 2024	483
Prior Period 31.12.2023					
	Highest	Date	Lowest	Date	Average
TL+FC	1.817	October 27, 2023	597	November 17, 2023	977
FC	1.138	October 20, 2023	195	November 10, 2023	506

The net stable funding ratio (NSFR), which is a complementary liquidity measurement method to the LCR that measures banks' resilience to short-term liquidity shocks and is calculated by taking maturity matching into account, was legally shared as of January 1, 2024. The BRSA has set out the principles and procedures for banks to ensure stable funding in order to prevent the deterioration of their liquidity levels due to the funding risk that they may be exposed to on a consolidated and unconsolidated basis in the long term. Pursuant to the "Regulation on Banks' Calculation of Net Stable Funding Ratio" published in the Official Gazette No. 32202 dated May 26, 2023, the three-month simple arithmetic average of the consolidated and unconsolidated net stable funding ratio calculated monthly as of the equity calculation periods cannot be less than 100% as of March, June, September and December.

NSFR is defined as the ratio of available stable funding (ASF) to required stable funding (RSF). The book values of assets and liabilities in accordance with IFRS are taken into account and weighted by multiplying the disclosure schedules published by the BRSA by the NSFR and GRF factors. Available stable funding is capital and liabilities that provide resources to the bank for more than 1 year. Required stable funding is a function of the maturity and liquidity capacity of the bank's assets and the liquidity risk arising from off balance sheet transactions. Capital, long-term borrowings, and customer deposits constitute the largest weight in the bank's current stable funding.

VIII. EXPLANATIONS ON RISK MANAGEMENT

Footnotes and related explanations are given in the section prepared based on “Communiqué on Public Disclosures Regarding to Banks Risk Management” published in Official Gazette No. 29511 at October 23, 2015 and became effective as of December 31, 2016. Based on this communique, the tables, which are to be prepared according to Internal rating-based (IRB) approach must be presented, are not presented because standard approach is used in calculation of the Bank’s capital adequacy.

1. Explanations on Risk Management and Risk Weighted Assets

1.1. Bank’s Risk Management Approach

Risk management covers the processes of measuring and monitoring risks, controlling and reporting risks within certain limits. These activities are carried out by Risk Management by reporting directly to the Internal Systems Officer. The Risk Management function is independent from the executive units and fulfils its responsibilities to the Board of Directors through the Audit Committee and the Risk Committee. Risk Control Committee has been established to act as senior management level subcommittee for risk management.

Under overarching principles of Comprehensive Risk Management policy, policies and procedures related to each quantifiable risks such as Credit Risk, Market Risk, Liquidity Risk, Operational Risk Management Policies as well as of un-quantifiable risks such as Reputation Risk Policy have been formulated and approved by the Board of Directors.

The Internal Capital Adequacy Assessment Procedure for the determination of the internal capital requirements of the Bank and evaluating its adequacy was approved by the Board of Directors.

Credit and operational risk constitute the major risk factors in terms of the types of risks that the Bank is exposed to. For the quantifiable and significant risks that the Bank is exposed to, written limits, risk appetite and early warning thresholds were set in the General Risk Limit Policy which is approved by the Board of Directors.

Risk appetite and limits are reviewed regularly by the Internal Systems Officer, Risk Management Director, Risk Committee and the Bank's top management in a manner not to exceed the legal limits stated in the legislation and if deemed necessary, re-determined with the approval of the Board of Directors.

Risks are measured using methods that comply with international and local regulations, the Bank’s policies and procedures suitable for the Bank's structure, stress tests and scenario analyses are conducted and reported regularly to the senior management, Risk Committee and the Board of Directors. Risk measurements are included in the Bank's decision-making processes.

The risk reports prepared for assessing the risks of the Bank are regularly shared with the Board of Directors and senior management. Within the scope of the reports; information on compliance with the limits and risk appetite indicators defined on the basis of each type of risk, results related to capital adequacy and results of stress tests are given.

8. Explanations On Market Risk

Market risk; is defined as the risk of loss in the value of assets and returns in the balance sheet and off-balance sheet as a result of changes in rates and prices in financial markets.

The Bank's market risk is determined, evaluated and managed within the framework of Market Risk Management Policy. This policy covers the basic principles of the Bank in relation to market risk management, the duties and responsibilities of the parties involved in market risk management and the process related to the measurement, monitoring and reporting of market risk. Within the scope of market risk, the Bank has interest rate risk and currency risk. Standard method is used to measure market risk and to be the basis for capital allocation.

The Bank measures market risk within the framework of legal regulations. In addition, the Bank conducts stress tests and monitors the management of the risk.

The Bank carries out the stress test by applying negative and positive shocks on the yield curve and the interest rate risk arising from the on-balance sheet and off-balance sheet positions.

The Bank carries out stress tests and evaluates currency risk by applying changes in foreign exchange risk on foreign currency net general position.

The Bank has determined the risk appetite and limits related to market risk taking into account the activities and product structure.

6.10. Explanations on non-performing loans

In order to ensure the collection and liquidation of the Bank's receivables that have become problematic due to loss of creditworthiness and for which legal proceedings have been ordered, the most appropriate course of action is determined by evaluating issues such as the nature of the loan, the collateral situation, the goodwill of the debtor and the urgency of the proceedings. Although the liquidation of the risk is mainly preferred through administrative initiatives and negotiations with the debtors, within the scope of the evaluations made, the method of liquidation of the receivable is also applied by directly initiating legal proceedings. However, the initiation of legal proceedings does not mean the end of administrative negotiations. An agreement can be made with the debtor for the liquidation of the Bank's receivable at any stage, provided that it is agreed upon.

EXPLANATIONS AND NOTES ON THE UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)**I. EXPLANATIONS AND DISCLOSURES RELATED TO ASSETS (Continued)****6. Information on Loans (Continued)****6.11. Explanations on write-off policy**

In order to ensure the collection and liquidation of the Bank's receivables, which are given legal follow-up instructions due to the loss of credit worthiness, the subjects such as the quality of the loan, the condition of the loan, the good will of the debtor and the urgency of the follow-up are determined, and the most appropriate action style is determined. Although the elimination of the risk is preferred through the administrative interventions and negotiations in the debtors, the liquidation method of the receivable is used by directly initiating legal follow-up procedures. However, the fact that legal proceedings have been initiated does not mean that administrative interviews have ended. An agreement can be made with the debtor regarding the liquidation of the Bank's receivables at each stage, if it is agreed.

As of June 30, 2024, the Bank does not have any written-off assets (December 31, 2023: None).

E. Evaluations of the Chairman of the Board of Directors and the General Manager

Bank of China Limited ("Main Shareholder") started its representative operations in Turkey through Bank of China Limited Turkey Representative Office incorporated in 2011. Pursuant to the decision of the Banking Regulation and Supervision Agency ("BRSA") dated May 2, 2016 and numbered 6880, Bank of China Turkey Anonim Şirketi (the "Bank") was granted the permission to incorporate a deposit bank in Turkey. After the incorporation of the Bank by obtaining the incorporation permission from BRSA, the Bank was officially granted permission for operation following the publication of the decision of BRSA dated December 1, 2017 and numbered 7612 on the volume of the Official Gazette dated December 7, 2017 and numbered 30263. With 99,99% shares of the Main Shareholder, the Bank was incorporated with its registration before Istanbul Trade Registry Office on January 10, 2017 and the said matter was announced on the Turkish Trade Registry Gazette dated January 17, 2017 and numbered 9243 together with the Bank's Articles of Association.

Our Bank started its banking operations on May 9, 2018.

Total assets of the Bank as of June 30, 2024 are TL 5,094,956 (December 31, 2023: TL 3,777,344), While our equity amounts to TL 2,680,273 (December 31, 2023: TL 2,334,164) our capital adequacy ratio is at the level of 28.62 % (December 31, 2023: 28.11%), As of June 30, 2024, the profit after tax of the Bank for the Period is TL 394,866 (June 30, 2023: 137,829). The majority of such profit is the interest income derived from banks placements, government bonds and loans.

With the support and guidance of our shareholders and Board of Directors, we believe that our Bank will achieve its future goals successfully by prioritizing the customer satisfaction.

II. ECONOMIC DEVELOPMENTS AND BANKING SECTOR OVERVIEW

Global economy has proven more resilient than expected in 2024. This is partly because monetary policy has not been as restrictive as initially thought also, fundamental changes of the global economy pushed up the neutral rate of interest. Outside the US the latter is less pronounced, ECB already cut rates in June, BOE is expected to cut in the summer and US is predicted to follow at the end of 2024. While these rate cuts have been much anticipated by the markets, volatile data kept central banks from acting so far. Given the positive start, China seems to be on course to achieve its 5% growth target for 2024; however, weaker domestic consumption and tumbling property investment can cause doubts. From a geopolitical point of view, 2024 will be a turbulent year, US elections, the conflict in Middle East and the fragmentation of the world powers could suddenly upend the risk sentiment of the markets.

After raising the rates 750 bps this year to 50.00%, CBRT is on hold for the second quarter. Markets expect CBRT to remain at this level until the Q4 and cut the policy rate to 45% by the end of 2024. Although inflation edged up to 75,5% in May, thanks to favorable base effects it will come down sharply in the coming months. The appetite of both local and foreign investors to TRY assets helped improving the CBRT's net reserve position. Both real persons and local corporates were sellers of US Dollar in the second quarter.

As of June, 2024, CPI occurred at 71.60% while PPI was 50.09% y/y. As per the latest expectations, base effect will most likely see inflation rate to drop 40% levels and stay there until the year's end. High policy rate is expected weigh down growth and yearend GDP growth is seen around low 3% levels. Current account deficit will likely narrow this year due the high interest rate environment that is expected to continue until the end of the year.

Loan to Deposit ratio of the sector is at 86.2% according to 2024 April BRSA data, Sectors' NPL ratio is at 1.52% while CAR is at 17.22%, Sectors' total asset size is 26,242 trillion Turkish Lira while deposits size is at 15,642 trillion Turkish Lira.
